

- ❑ The Town has a significant backlog of required road improvements (pavement, drainage, bridges, sidewalks) estimated at over \$30 Million.
- ❑ Our current funding of approximately \$500,000 per year from State Ch. 90 Funds is not enough to address the backlog or even maintain current condition levels known as PCI (Pavement Conditions Index).
- ❑ Our PCI level is ranked at 51.2 on a PCI scale of 1-100 and is extremely poor relative to other communities that have road program funding over and above Ch. 90 funds.

Email the Town Administrator:
agaudette@spencerma.gov

Visit the Town Website (www.spencerma.gov) or direct link at:
http://www.spencerma.gov/pages/spencerma_bcomm/FinancialManagement/index

- ❑ The Town is evaluating required funding levels and impacts to tax payers to improve our road conditions.
- ❑ If we rely solely on Ch. 90 funds, our road conditions will continue to deteriorate and so will our PCI .
