Important Information Regarding Special Liquor Licenses (Section 14 Licenses)

Persons holding a special license must purchase alcoholic beverages from a licensed wholesaler/importer, manufacturer, farmer-winery, farmer brewery or special permit holder. A person holding a Section 14 license cannot purchase alcoholic beverages from a package store. There is a list of suppliers on the ABCC website under the Licensing section.

Licensee cannot purchase alcohol before the license is in effect, or once the it has expired. There cannot be any alcohol left on the premises; it must all be either sold or disposed of legally. Alcohol cannot be brought into or out of a licensee's regular premises.

Licensee cannot sell unlimited number of drinks for a set fee; it must sell by the drink or a ticket must be good for a limited number of drinks.
