Use of Transfer Station Compost Area

(Located at: 17 South Spencer Road, Spencer, MA)

Use of the transfer station compost area is only allowed for currently authorized transfer station permit holders. Transfer station permits may be obtained by Town residents at the Utilities and Facilities Office located at the Water Department Building, 3 Old Meadow Road, Spencer, MA, Phone: (508) 885-7525 or (508) 885-7515.

The compost area is located on the front right side of the access road to the transfer station off South Spencer Road. Based upon compost area monitor availability the Compost Area will be open on select days only. If the gate is locked you must see the transfer station attendant to obtain the compost area gate key and to have you compost load inspected prior to dropping it at the compost area.

ALLOWED - Only the following specific materials may be brought to the transfer station compost area:

Leaves, grass clippings and previously composted materials ONLY.

NOT ALLOWED – The following prohibited materials can NOT be brought to the transfer station compost area:

Trees, branches, brush, debris, trash, garbage, plastic or any other material not specifically listed above. None of these prohibited waste materials will be allowed at the transfer station compost area.

Residents with trees, branches, brush, debris should either stockpile and burn via a burn permit when permits are available or hire private haulers. Residents with debris, trash, garbage, plastic or any other material may dispose of those materials via the standard transfer station permit and Town trash bags.

If any questions contact the Spencer Utilities and Facilities Office at (508) 885-7525 or (508) 885-7515.
